CHAIRMAN'S DESK

Welcome to the MI Udaan's first edition of quarterly e-magazine "Spectrum of Udaan". We hope you enjoy reading this "Spectrum of Udaan" newsletter and our team is looking forward to your feedback so we can continuously improve this along the way.

Year 2020-21 has been an exceptionally challenging year for all of us. The outbreak of the Novel corona virus (Covid-19) pandemic affected every individual and society at large. We have built resilience while, at the same time transforming to perform with excellence in the new normal. And we are proud to tell you all about it in this e-magazine. The magazine aims to provide a glimpse of the Udaan's various environmental, social accomplishments and upcoming service projects.

One of our major achievements in the past 5 years has been our ability to settle in, stabilize and strengthen our existing structures, define and institutionalize operational processes and start conversations with new prospective needs of the society. We have been able to establish our web presence (with websites & Social Media), streamline our services projects and yield results from the fine tuning.

By understanding, and embracing our society's challenges and needs, we build stronger and lasting relationships that yield long term outcomes. The society look at us as their trusted partner. And we recognize the significance of the project initiatives entrusted on us. We ensure to meet and exceed society's expectations, our own commitments, innovate in our service projects and deliver excellence (as our mantra says "Love all, Serve all")

In order to achieve this, we are always investing in our members, improving our culture and work environment through social bonding over fellowships. Also, at the same time encourage the new talents to lead the projects as and when the new opportunities pour in our organization.

I take this opportunity to thank members and society at large for their fantastic contribution towards the service, fellowships and growth of Udaan. Let us take this opportunity to make sure we keep creating values for the society.

Deepawali is festival of hope, light and happiness....Let's come together to brighten up the life of underprivileged.

Warm Regards,

THE SECRETARY SPEAKS

क्या हाल है मित्रों ? हम सभी एक अत्यंत कठिन वैश्विक महामारी के दौर से गुजर रहे हैं। इन परिस्थितियों में तो बस किसी के मुंह से अच्छे हैं ,सुनकर ही तसल्ली मिल जाती है।

इन हालातों ने हमें जीवन की क्षणभंगुरता पर विचार करने के लिए विवश कर दिया है, पर संघर्ष का नाम ही जीवन है। यह वक्त भी गुजर जाएगा, किसी भी परिस्थिति में मनोबल बनाए रखें, विश्वास और हिम्मत बनाए रखें।

कई परिवार मुश्किलों से जूझ रहे हैं। ऐसे में बेझिझक अपनी तकलीफों और आवश्यकताओं को साझा करें, एक दूसरे से संपर्क बनाए रखें। स्नेह का धागा और संवाद की सुई ,उधड़ते जीवन को कई बार बचा लेती है। महावीर इंटरनेशनल के माध्यम से इस प्रयास में सफलता पा सकते हैं। हमारी इस संस्था के लक्ष्य को साकार रूप दे सकते हैं। सेवा करने में जो सुख है वह अनुभव ही किया जा सकता है – व्यक्त नहीं। महावीर स्वामी के बताए मार्ग चलकर हम अपना जीवन पुनः संवार सकते हैं।

छू ना सके आसमां तो ना सही ,लोगों के दिलों को छूने का आनंद भी आसमां छूने से कम नहीं।

हमारे सभी त्योहार, हमें एक ही संदेश देते हैं—बुराई पर भलाई की जीत। समाज में फैली हुई बुराइयों पर विजय प्राप्त करने से पहले, हम सबको अपने मन को नियंत्रित कर उस पर विजय हासिल करनी है। रावण के पुतले को जलाने जितना ही जरूरी है, अपने मन के अहंकार और क्रोध रूपी रावण को जलाना। आने वाले त्योहारों को हम पूर्ववत् तो नहीं मना सकते पर इनकी मूल भावनाओं के साथ, सबके साथ उल्लास से बना सकते हैं। सबके चेहरों पर मुस्कान और बहार ला सकते हैं।

माना कि सारा जहां गुलजार कर सके ना हम, पर दो कांटे तो कम कर सके गुजरे जहां से हम।

VICTORY OF GOOD OVER EVIL

India is acknowledged as the land of festivals and celebrations. As the festive season is approaching, we celebrate and reaffirm our belief that all through history, doomsayers and cynics notwithstanding, good always triumphs over evil. Light can devour the darkness but darkness cannot consume the light.

Good and evil will always be a battle that never stops. We all know that Ravana, such a learned man, who also has his credit more than a dozen texts, is said to have been a slave to his desires. And as a result, he not only brought about his own destruction but also had his entire kingdom to ashes.

Like Ravana, when under the influence of vices, we are attacked by non-productive and negative thoughts. Anger, jealous, resentment, greed, inferiority, lies and ego spring up like the heads of the demon king. Conflicting thoughts always keep dancing in our mind.

Good or evil! It's time to make a choice! Not once or twice, but every day we face this challenge. Be it a simple task like waking up early with the alarm or keeping on snoozing it. Taking out time to workout or watching another Netflix series. So how many times do we let our will power win over our weaknesses? How many times are we able to withstand our cravings for an extra dessert or some junk food?

How often do we use our civic sense to keep our surroundings clean by not littering the roads and how often do we succumb to the weak thoughts with weaker excuses? Are we patient enough in traffic congestions or do we honk and spoil everyone else's frame of mind? The good in us asks us to empathise with others but the evil always prompts us towards criticism.

Life always gives us a choice in each and every task and it is the wisdom in us that makes us choose the right one. Every time we choose to let the good win over the evil, it is time to celebrate. The core meaning of any festival is not about celebration and rituals for a day but a reminder for us to adopt the divine way that makes this world a better place to exist in.

As we celebrate the victory of good over evil, the festivities inspire us to abandon all desires and ego, living in this world and performing actions, but without attachment.

May all the tensions in your life burn along with the effigy of Ravana and fill your life with joy, peace, love, hope, kindness, truth and humility.

A FLEDGLING FLIGHT TO THE SKY

At the onset, my heartfelt congratulations to all members of the team for taking steps towards reaching out to the community for social development and enhancement via our quarterly Newsletter.

A small snippet on the journey of Udaan.

In the year 2004-05, Mahaveer International Hyderabad Chapter under the guidance of then president Vir D C Galada and Vir Inder Chordia (Convenor) set out to create a centre of excellence for the youth. It was a simple goal of bringing together young people of the society to serve the needy. Caste, creed and religion were immaterial for service activity or membership drive.

VIR SHAIL GALADA

An invitation for eleven couples on a breezy and beautiful evening at Sailing annex roof top restaurant became a reality in taking our dream further ahead. Sitting across the convenor, watching the stark faces of twenty two people (me being one of them), we were excited in getting to know each other. This evening was special for me, since I was looking forward to starting afresh with the only thought of making friends, networking, as I had been away from the city for the last 10 years.

“Who would be the one to lead us was the only thought running in our minds.”

Lo behold! My excitement of flight quickly turned to Fright when the burden of leading the team was placed on me. A stranger to a town with the responsibility of leading twenty one unknown people of our society! Vira Sanju Giria was to take the position of Secretary. I guess that was the best thing that happened, as her confidence brought in a sense of clarity.

To take the team forward I created a vision statement – To create a platform for each individual to bring forth positivity and vibrant ideas that would be beneficial in serving the needy in any manner whatsoever possible. With this view on the vision, MI Udaan, (MI Youth Wing as known formerly) started our first official meeting at Necklace road. The idea of being the force to take up activities of Apex and MI Hyderabad turned to reality. As Chairman of the team, my task as I understood was to bring about an atmosphere of trust, openness and interdependency. My task was to unmask the inhibitions and fears within our team to take up challenges. I read somewhere that the best that you can do is to believe in people around you, which will bring forth changes that give immense joy.

Trusting someone and believing in them is not only a confidence booster for that individual, but also for yourself, as it only reinforces that everyone around you is destined for greater good, provided we have proper freedom and thrust given.

Once done I honestly enjoyed the bonding among us and it was a blessing in disguise. Service activity become a peace giving action, which, with each team that came in, grew in bundles of joy. The best that I took from my tenure is my friendships, joy of seeing a smile on my team members and the blessings of the needy.

KNOW YOUR MEMBER

VIR RAJESH & VIRA CHANDRA PATAWARI

1. To begin with, tell us about yourself?

Rajesh:- I have always been athletic and highly inclined towards sports. I find peace in music and singing is my passion. I'm a hardworking and disciplined individual. Swimming is a sport that I love the most and despite my busy schedule, I always take out some time to practice swimming.

Chandra:- Well, to begin with, I like to keep things simple and sober. I am admittedly very finicky when it comes to cleanliness. I tend to be possessive and protective when it comes to my relationships. I am a firm believer of The Almighty. Listening to music and reading books rejuvenate me. I also love cooking new dishes.

2. Could you share some light on your achievements in the field of sport?

Rajesh:- Swimming has won me quite a few accolades. I am fortunate to have been able to manage my business and still continue swimming. I have been participating in state level swimming since the last 7-8 years. By God's grace, I have emerged as a gold medal winner in every state level swimming event that I've taken part in. In 2016, I also won a bronze in National level swimming in Gulbarga.

3. Did you ever imagine that you could reach this level of performance?

What is your motivation and your partner's contribution in your success?

Rajesh:- My ever-increasing love for sports drove me towards being one of the best in each sport that I took up. Truth be told, my partner hardly has any interest in sports. However, what matters most to me is that, she was always there to laud my performance in every sport that I took up. Her unflinching efforts to maintain my mental and physical health are applause worthy.

4. Out of these 26 years of togetherness, which year would you like to relive and why?

Rajesh:- I would love to relive the initial years of our married life. Those were some of the most beautiful years of our lives.

Chandra:- I would like to relive my present over and over again. The reason being, I have never felt so empowered, self-sufficient and independent in my life before. I am absolutely in love with the current version of me.

5. These days most of the women are working. Have you ever felt the need to do so?

Chandra:- I have always felt that every woman shall be financially capable and independent. So, I have taken a big step towards my financial independence. I am extremely proud and happy to announce that I have started a new venture called Kulture, which deals in home bedding. It is a mix of intricate hand block prints and finest quality cotton, all combined in one.

6. You have been associated with Mahavir International Udaan for more than a decade. Share your views on your association with the organization.

Rajesh:- We have been a part of MI Udaan for more than a decade now. Shail Galada was the president at the time when we joined. Since then, it seems like more of a family affair only. I feel truly blessed to be part of such a wonderful organization. I have only gratitude in my heart for being a member of MI Udaan.

Chandra:- I have met some of the most creative and brilliant people through my association with MI Udaan. This organization has relentlessly been working towards giving back to the society through its heart touching endeavors. MI Udaan also organizes various recreational events which bring out the best in all the members. I feel that this organization is a wonderful mix of charity, fun, talent and social bonding. The one thing that separates MI Udaan from various other organizations is its aim of service before self.

7. Where do you see MI Udaan, 5 years from now?

Rajesh:- Honestly, sky is the limit for MI Udaan in the coming years. The zeal and enthusiasm with which it has been working is commendable. With this kind of progress, there is going to be no looking back for MI Udaan.

Chandra:- Frankly, I feel that if MI Udaan keeps up the current pace and works as incessantly as it has been working, it will soar to newer heights in the coming years. And the day is not far, when this organization will be globally recognized and applauded.

SEWING MACHINE AND WHEEL CHAIR DISTRIBUTION

Udaan has always been active in supporting individuals and Organizations striving to help the deprived and underprivileged.

On the request of one of our active members, Udaan paid a visit to Child Heaven orphanage at Bandalguda Jagir. On our visit, we were delighted to see the enthusiasm and energy of the kids. The excitement of seeing new people was evident from their gesture. They were about Fifty children. The children in their adulthood here are prepared to face the world outside and develop their own set of skills to make a career out of it and earn their livelihood.

On interaction with these kids, we found out that the girls were learning stitching & sewing skills and were in need of professional sewing machines to learn advanced level in sewing.

Udaan made a minuscule contribution of two professional sewing machines to make them self-sustainable and to pave them a pathway to livelihood.

It is said that “No act of kindness no matter how small is ever wasted”

We believe one day these children will develop their own career out of their interest and become self-employed and also teach the younger generation to follow the pathway.

Two wheelchairs were urgently required and provided promptly to the divyang in the month of September. Timely help from the members could make it happen.

Challenges faced as a woman and how overcoming them was achieved ..

As a woman in this male dominated industry, to establish a foothold in this particular industry was tough 19 years back. However, with a zeal, passion for perfection, sincerity and diligence, people started recognising her work. Also when she started out, she was clear that she wanted to do things in an unorthodox manner and hence today her practice is very different from her peers, and that is what makes her work and achievements, outstanding.

“Seeing something as a challenge is a sign of weakness...recognising a situation and working to win it is the real sign of strength” says Shubhra. What a sublime way to face things in life !

What motivates her ..

Her biggest motivation has been her husband/friend/guide/coach - Sharad Maheshwari, who always gave the wind to her wings and stoked her fire of passion within. She aims for the stars and he gets her the ladder to climb up for those stars.

What she has learnt during her journey..

Shubhra has learnt in her professional journey that there is a sky for every individual- one just needs to recognise and own it. There is no dearth of opportunities- one needs to have a keen eye to observe and grasp them.

SUCCESS STORY

As she rightly says ...

**“Life is now about waiting for the storms to pass.
It’s about learning how to dance in the rain.”**

How does she manage her time ..

Tough but achievable she says. Her father Shri Shashikantji Moondhara was her inspiration in early life and she learnt to juggle roles, don various hats , be organised and systematic, and to prioritize tasks wisely based on significance. He taught her to “plan efficiently, execute meticulously and deliver flawlessly”. Her mother Smt.Shashi Moondhara till date holds never to say “ I am busy”! Infact she advises to say- “I am easy with work in hand”. Shubra therefore thinks, time management has come to her genetically!

How has the FICCI experience improved her as a person..

“Oh FICCI FLO has been a great learning journey of my life” says Shubhra.

FLO has inculcated in Shubhra, a thought process of being a catalyst for change, of uplifting women and the needy, and to synergise opportunities for the benefit of larger sections of society.

Purpose of joining MI Udaan and how she intends to benefit from it ..

Aarti Choraria got her into Udaan with the ideology of meeting like-minded people and to be a part of the out of the world service to the society which Udaan has become an epitome of !

A motivational message for other women to overcome the general challenges faced by a woman..

Be a strong woman, conquer your apprehensions, be diligent, manage time wisely, be strategically insane and dare to be different!

Her mantra in life..

“Believe you deserve it and the universe will serve it !”

HEALTH TIPS

The longer you brush and the harder you brush your teeth are going to be whiter and cleaner.

Ans:- But the fact is that you could actually be damaging your tooth enamel by brushing harder and longer. A soft bristle brush with small rounded motions is recommended to clean your teeth and gums. 5-7 minutes maximum time brushing time is recommended.

What is the right tooth brush to use?

Ans:- Every person's mouth anatomy and size are different and hence, one single type of brush cannot be recommended for everyone. You need to try different types of brushes and see which one suites your mouth and can reach all the corners and back of your mouth.

Do you brush at night?

Ans:- Most common mistake people do is avoid brushing at night and this causes damage to your teeth and gums. The bacteria in your mouth start acting on the food stuck between your teeth and produce acid over time, especially at night. This acid can damage your teeth and gums.

Tongue cleaning !

Ans:- Tongue has small finger like projections on it called papillae. Food and bacteria can get stuck in between these papillae and give rise to bad odor and infections, hence like brushing it is also important to clean your tongue to prevent bad breath and infections.

Flossing !

Ans:- A floss is a thin nylon thread that is used to clean between the teeth. A floss cleans 30% of plaque which is not cleaned by regular brushing.

Reaching your wisdom tooth/ third molar !

Ans:- A lot of times the wisdom tooth is not cleaned properly because your not able to reach with your brush in open mouth position. The way to clean the last tooth is to keep your mouth closed, brush inside by pulling the cheek and reach this inaccessible area of the mouth.

GOOD ULTIMATELY PREVAILS!

Come September and the festive mood is in the air. The calendar is marked with chain of festivals which symbolises kindness, goodness and importance of virtues over vices. The festival season kicked off with " Paryushan", an eight day Jain festival which stands for spiritual awareness, discipline, compassion and forgiveness . Paryushan culminates with "Samvatsari" on the last day - a day of atonement, repentance and purification of soul by seeking forgiveness. Soon followed by Navratri, nine-day festival followed by Dussehra on the 10th day which commemorates Goddess Durga's triumph over the evil Mahisasura. Then comes Diwali, the Festival of Lights which marks how light overcomes darkness.

Dussehra celebrates the victory of Lord Rama over Ravana. Ravana personifies vices of Lust for power, women and greed . On this day, effigies of Demon Ravana are set ablaze at night in open fields. The end of Ravana is symbolic to the end of bad and evil spirits. In eastern parts of India, people worship Goddess Durga and celebrate Dussehra . It is believed that it was on this day that the demon Mahisasura was killed by the Goddess.

There is an association of many gods/goddesses, cultures, and traditions with Diwali. Diwali symbolizes the spiritual victory of light over darkness, good over evil and knowledge over ignorance. Diwali symbolises prosperity, bliss, health and happiness.

There is an ongoing battle between good and evil in every being . It is our choice to note our actions in our lives and relationships, identify the strength towards the righteous path and embrace spiritual living.

Festivals that celebrate the victory of good over evil not only validate our value system but teach us to see good in others and ourselves. They also allow us to reflect on the mistakes we may have made, people whom we may have hurt and teach us to seek forgiveness and forgive others.

In the dichotomy of good and evil, it takes courage to fight our own inner Demons, to battle evil enemy like materialistic desires and greed. All these stories teach us to practice kindness, joy of gratitude and forgiveness which increases our happiness quotient.

They also enforce in us the belief that "GOOD ULTIMATELY PREVAILS".

JOURNEY OF DARKNESS TO LIGHT

Once upon a time, and long ago, there lived a princess. Her name was Emily, and her entire court loved her. She always helped those in need and had a smile for everyone. She had wavy, silky hair that fell past her knees; pure, olive skin; and a face that was perfectly oval. Her real beauty, however, lay in her eyes.

It seemed that nothing could make her angry; but alas, it was not so. Her aunt ruled the kingdom while Emily's father was away tending to his people's needs. Aunt Daemonium was selfish, petty, and cruel. She also loved the all-time darkness in the sky because the Earth didn't move at all so all of the sun's light used to shine only on the other side of Earth. The sunlight wouldn't reach the other planets too. The people hated and feared her. Jealous of the way the court adored her niece but detested her, Daemonium devised a plan.

If she were to send Emily on a quest to find the lost crown . . . yes, that would work. The crown was the key to the realm's power. It had been stolen away centuries ago, and the kingdom had been having difficulties ever since. Only someone of royal blood could touch the crown, so that fact gave Daemonium a legitimate reason for sending Emily to reclaim it. Emily's father wouldn't be able to argue with such a decision. Daemonium called her niece to her chambers. She proceeded to explain that the king needed the crown if they were to save the kingdom from ruin. "And don't come back until you've got the crown." Emily sighed and nodded.

No matter what her aunt thought, she wasn't stupid. She knew that Daemonium just wanted to get rid of her. Where on earth was she supposed to find the crown? They had been looking for centuries and no one had ever found it! In eternal darkness, alone, she was liable to get killed. There was nothing in the sky to light her way, and Emily couldn't possibly carry enough oil for a lantern. It was already time to go so Emily went without a hesitation. Putting the pieces of the puzzle in her mind, she

muttered to herself, "Maybe no one has found the crown on earth, because it isn't on earth anymore!" She looked in the sky, "I think it is in the sky." Abruptly, God's voice echoed in her head. "Well done, Emily. You are the first of your kind to get this far. The rest will not be easy. In a few moments I will place you in the sky. You have tonight, and tonight only, to locate the crown. If you lose, you must stay in the sky forever. Do you agree?" Emily said yes and all of a sudden, she found herself in space and was as tall as the Earth.

E*mily wondered how she could breathe in space but she left that question for later. Emily glanced at herself and found out that her necklace was glowing. She needed the glowing necklace to lighten her way and also find her way back. She accidentally dropped the necklace and hundreds of diamonds scattered away. The diamonds lightened up space but she was only left with the largest diamond. Emily went forward, backward, left, right and diagonally but she could not find the crown. She wondered if the crown was under Earth. She pushed Earth gently but it started moving around the sun and it did not stop. The light from the sun showed some large ball-like things. Emily identified it immediately. They were planets. Emily pushed the other planets too but she accidentally pushed Venus and Uranus in the wrong direction(this is why till date they revolve in the opposite direction) . She also rotated Earth so every place would have sunlight and darkness which created a balance.*

T*his is the evolution of rotation and revolution of the planets. The light and the dark created a mysterious energy field created by life that binds the galaxy and life together and flows through every living being. The mysterious energy field is called the force. The force created great urbanisation and inspiration to visit the space which led to the creation of the Jedi and the Sith, the light and dark. Emily concentrated deep in her mind and found that there was no crown , the actual power lies with a person with a pure heart. Truth and kindness will resolve all your problems and those who run after materialistic things and are greedy , will not last long . This enlightenment brought her back to the ground. She had returned to Earth with light and everyone was delighted to see her. The people said that Daemonium had absconded because she hated light. At night Emily could see the light from her diamonds and could also see the largest diamond which seemed like it was closest to Earth.*
